

Real Estate

Our team has the experience, insight and deal-making ability to advise clients in a broad range of real estate transactions and issues. For decades, Ireland Stapleton has represented clients in many of the most significant transactions involving Colorado real estate. We are particularly proud of our abilities and experience in advising clients in ranch acquisition and management in Colorado and Wyoming for high net worth individuals. We help clients find solutions to their biggest problems involving real estate. Our lawyers use their experience to guide clients and facilitate transactions, intercede effectively on their behalf in regulatory matters, and provide good counsel in situations where real estate transactions are only an incidental occurrence.

We have the perspective and the attention to detail necessary to add value for our clients in all areas of real estate, including:

- Property Acquisition and Sale
- Construction
- Development
- Leasing
- Financing
- Foreclosure and Workouts
- Partnerships, Joint Ventures and Entity Formation
- Condemnation
- Title Disputes
- Affordable Housing
